U.S.Battery’s Innovative “US24DCXC2, US27DCXC2 & US31DCXC2” Deep Cycle Batteries are designed and manufactured using the same plate making technology as our flagship and world famous US2200XC2, along with U.S.Battery’s other premium Deep Cycle Batteries. That’s the true difference between U.S.Battery and other battery manufacturers. U.S.Battery custom builds every plate that goes into our new and improved US24DCXC2, US27DCXC2 & US31DCXC2 batteries to hold the maximum amount of energy absorbing paste possible (now with U.S.Battery’s proven “XC2” technology). This new process provides Longer Battery Life and Improved Maximum Capacity. All of U.S.Battery’s batteries are designed to endure the grueling day-to-day charge and deep discharge cycle that causes most other competing brands to fail prematurely. That won’t happen to U.S. Battery’s products, as our proven manufacturing processes and techniques will give you years of Reliable and Dependable service. Longer lasting and precision-engineered products are only a few reasons why the U.S.Battery brand is a name the world has trusted for over 88 years. We were here for you then and will be here for you now and for decades to come.
US 24 DCXC2 SPECIFICATIONS

- 5 Hour Rate: 68 Ah
- 20 Hour Rate: 85 Ah
- Min. of Discharge: 145 @ 25A. @ 80°F
- Min. of Discharge: 38 @ 75A. @ 80°F
- Length: 10-7/8”
- Width: 6-3/4”
- Height: 9-3/8”

US 27 DCXC2 SPECIFICATIONS

- 5 Hour Rate: 89 Ah
- 20 Hour Rate: 105 Ah
- Min. of Discharge: 205 @ 25A. @ 80°F
- Min. of Discharge: 54 @ 75A. @ 80°F
- Length: 12-3/4”
- Width: 6-3/4”
- Height: 9-3/4”

US 31 DCXC2 SPECIFICATIONS

- 5 Hour Rate: 99 Ah
- 20 Hour Rate: 130 Ah
- Min. of Discharge: 225 @ 25A. @ 80°F
- Min. of Discharge: 59 @ 75A. @ 80°F
- Length: 13”
- Width: 6-3/4”
- Height: 9-5/8”
